

VIBRATING POKER SYSTEMS

Engineered with minimum moving parts
 Simple precision construction,
 No special tools required
 High efficiency and centrifugal force output
 Maintenance free rotor
 Simple on/off valve
 In Line Lubricator fitted as standard
 Wear parts produced in heat treated high quality steel
 Highly competitive price
 Available with 2 mtr, 4 mtr & 6 mtr hoses
 2 Mtr Supplied as Standard
 Available with polyurethane noses

AP PNEUMATIC POKERS

Model	AP28	AP35	AP45	AP55	AP65	AP75	AP85	AP100

Extension hoses: can be used but pressure at the coupling must be maintained at 87 psi to avoid a drop in vibrator performance using a 30 mtr 1/2 " hose there can be a 10% drop in pressure. The exact length of hose that can be used is dependent upon site conditions and the compressor used. Performance figures are all theoretical based on a new machine, but may vary due to different types of concrete and should only be used as a guide
